**Meeting ID:** 980 6860 6339 **Passcode:** 382480

---

16:30

### Opening remarks

by **Alexandre Brutelle**

Director @EIF

- Presentation of EIF goals and missions.
- Presentation of *EIF's 2021 Activity Report*.
- New Year's objectives: setting activities and long-term reporting initiatives.

16:50

### EIF Network members 2021's highlights

- **Investigating marine pollution:** an introduction to Remote Sensing for environmental investigations, by Christina Orieschnig, Earth Observation PHD researcher.
- **Unconventional gas in Southern Tunisia:** turning a scientific controversy into investigative material, by Momchil Yordanov, AI and Remote Sensing engineer.
- **ENI exploring Albania without environmental permits:** investigating due diligence of environmental impact process, by Inva Hasanaliaj, albanian journalist.
- **Holiday resort Mercurey pollution:** Uncovering environmental impact through Freedom of Information requests by Dimitri Zufferey.

17:30

### Q&A session

17:45

### Looking ahead and getting involved

- Launching our monthly newsletter !
- EIF network newsletter: a bi-monthly resource for our members
- EIF recruitment process and types of activities

## Speakers

### Alexandre Brutelle

Alexandre is EIF director and one of its co-founders. He is an **investigative journalist, mentor and trainer** specialized in **cross-border collaboration** and **environmental issues**. He is **responsible for carrying out the NGO's development** by setting out its **goals, activities** and **external partnerships**.

### Kristof Horvath

Kristof is the EIF network manager and one of the NGO's co-founders. He is a former data science researcher and is responsible for coordinating our network through **external and internal events, members outreach** and **individual recruitment** within the EIF global consortium.

### Christina Orieschnig

Christina is a PHD researcher in hydrology and earth observation. She is EIF's **point of focus** regarding the experimentation and well implementation of **remote sensing** technology in the field of **environmental journalism** through **satellite image monitoring** and **analysis**.

## Speakers

### Momchil Yordanov

Momchil is an **AI developer** and **remote sensing analyst**. He has been working as a consultant with a strong focus on **agricultural land-use management analysis**, notably through earth observation techniques including **satellite imagery analysis, deep learning, GIS, and crowdsourcing visual data**.

### Inva Hasanaliaj

Inva is a journalist since 2015. She is part of “Faktoje” as a **fact-checking journalist** since its inception. She completed her studies in Public Relations and Communication, while her previous experiences as a journalist include the fields of **economic, political and investigative journalism**. Initially, she worked for the newspaper “Mapo” where she addressed **economic issues**.

### Dimitri Zufferey

Dimitri is a documentation journalist for the Swiss public television (RTS) trainer and mentor. He investigated the Jersey Offshore files along with the **EIC network**. After a deep archive research in cooperation his newsroom, he was also able to give new insights on the **Luxor Massacre of 1997**. Dimitri’s field of excellence is supporting his colleagues during collaborative research.
