

#MineAlert-Africa

Uncovering Biodiversity Threats
Caused by Mining Across Africa

15th April 2024 - 5pm CET

Join the webinar [here](#) / Passcode: 335869

EIF is launching the first geo-journalism tool uncovering biodiversity threats caused by mining licenses across 22 countries of the African continent. #MineAlert-Africa enables tracking of tens of thousands of such licenses and alerts users whenever these are overlapping with any protected area.

#MineAlert-Africa is launched in partnership with **Oxpeckers** and was supported by the **Journalismfund Europe**

17H00

Opening remarks

by Alexandre Brutelle (Project Coordinator & EIF director)

17H05

Inspired from Oxpeckers pioneer tool: #MineAlert
